Dear host family,

Thank you for offering me the chance to spend my time in Sweden, in your house and your family. Even though I don't know you yet, I'm already really excited to meet you.

But let me tell you a little bit about myself.

I'm 15 years old and currently attend the 10th grade in the school nearby. I live in a suburb near Essen, which is a larger city in the Western part of Germany, not too far from Cologne. My suburb is more like a small town and located between some hills near Lake Baldeney.

My favourite subjects in school are Music and History – and my least favourite is physics. In my leisure time I love dancing (standard dances), singing in choirs (I am a member of our School choir and the youth choir of the Aalto Theater here in Essen) and I take singing lessons. Additionally, I practice piano since 8 years now. And then I really like spending time with my friends and my family, which is dear to me.

I don't like to be alone that much and rather prefer to have people around me. I guess that's driven by having three siblings that I also like to spend time with. I have two sisters (who are 18 and 13 years old) and a little brother (who is 11 years old). Besides from that we also have a little black cat (which is 8 years old), that loves to cuddle up next to me when I read. I'm definitely a family person and I also hope for a nice family life during my exchange, spending time and enjoying activities together.

You might wonder why I am interested specially in Sweden for my exchange. One reason is of course the language – I love hearing people talk in Swedish, because it sounds so beautiful. I started learning it and I hope that spending half a year in Sweden will help me learn it faster and more accurate (because I'll learn the Swedish you actually speak in Sweden, with all the sayings and the slang). Furthermore, I have been to Sweden before with my family during holidays. We spent some time in Malmö, Göteborg and Stockholm and that was an eye-opener for me, especially the atmosphere of the cities and the courtesy of the people. I fell in love with the country and now I am eager to learn more about you, your country and the culture.

I hope to find new friends, collect new experiences, spend time with my host family, learn more about the way of life and improve my language. And maybe there is a chance to try out a new hobby like a new kind of sport.

All in all I'm really excited and looking forward to my time in Sweden and to meet you face to face.

Yours faithfully

Ava
