

"Jenny's relationship with classmates and teachers is very good. She is always willing to work hard, both individually and in group."

Lär känna Jenny

Jenny är född 2009 och kommer från Italien. Hon kommer i augusti 2026 och stannar under ett läsår. Intressen är bl. a musik (spelar gitarr och sjunger), böcker, filmer och teckna/måla.

Dear host family,

my name is Jenny and I come from Italy. I think of myself as a kind, empathetic and funny person. I'm a bit of an introvert, but I manage to open up as soon as I get to know someone. I am also very responsible, so I always do my chores at home and study every afternoon.

I have several hobbies, but my biggest passion is definitely music. I love to listen to music. My favorite genres are mostly rock, punk, and heavy metal. My favorite bands are Ghost, Ozzy Osbourne, Metallica, Green Day, and King Diamond. My dad is a singer in a death metal band, so he raised me around this kind of music, which I love! That's also why I enjoy going to concerts. I've seen several bands, but I think that my favorite one is Ghost. I've seen them live three times already and still can't get enough! I also play guitar and I've been taking classes for four years. My music school organizes a contest every June in which we are divided into bands and have to compete against each other. That's my favorite time of the year because I love to play on stage! I sing as well, I've been studying it for two years and I like it very much! It helps me greatly to express myself and I can finally feel like myself when I sing. That's not all because I also love to read. I like mostly fantasy and horror books, but I don't mind novels too. My favorite book is a novel by an Italian writer called Enrico Galiano and it's called "Eppure cadiamo felici." I spend entire afternoons reading, especially the rainy ones. Rain is, in fact, my favorite weather. I like drawing, too, because it's a great way for me to express myself. But I'm still learning because I only started last summer. I enjoy watching movies as well. My favorite genres are still horror and fantasy, but I also love Marvel movies. My favorite Marvel characters are Loki and Deadpool. My favorite movie is probably "The Avengers." I don't really like playing sports because they make me feel uncomfortable and tire me out.

Another of my passions is traveling. In fact, my family and I have a tradition. We go on a journey every year to a different destination. My favorite one definitely has to be the trip to Stockholm. That city will always have a place in my heart.

Next, I'd like to talk about my school. I study foreign languages in high school, and the ones I'm learning are English, Spanish, and German. My favorite subjects are German, History, and Spanish. I really like what I'm studying, and I'd like to become either a teacher or a psychologist in the future.

My school isn't really close to where I live, so I have to wake up at 6 A.M. to take the train. Once I'm in the city where my school is, I have breakfast in a café and then meet up with my friends in front of the school. Classes start at 8 A.M. and finish at 2 P.M. After that, I come home by train. I usually have lunch alone because my mom comes back from work in the evening, and after eating, I do my homework. Once I'm done, I spend the rest of my afternoon relaxing and doing things I enjoy, mostly reading, playing guitar, or playing video games. Then I usually have dinner around 7:30 P.M., and after that, I watch a TV series or a movie with my mom. Afterwards, I get ready for bed and finally go to sleep around 10 P.M.

Actually, I live just with my mom. We live in a small town. It's quiet and a bit boring, but I don't mind.

We used to have a cat too. Her name was Nala, but unfortunately, she passed away a few years ago. However, I'd like to adopt another cat in the future.

I really enjoy spending time with my mom. We usually read, watch movies, and take strolls around my town together. I also see my dad once a week, and when I do, I have dinner with him at my grandparents' house. We always talk about music and video games.

I also love spending time with my friends. I have a small but close group of friends, and when I'm with them, I love to play instruments, walk around and also play video games together. We enjoy talking about any topic and sometimes end up having deep conversations. My friends have given me a nickname. They call me "Tempest" because I love storms!

Lastly, I'd like to talk about why I want to do this experience.

It has always been my dream because I want to discover a new culture and find out what it's like to live in another country. I'd love to study abroad because it will give me valuable experience, and I'd like to know what school is like in another nation. I hope I will become more independent, learn a new language, improve my English, make new friends, and bond with my host family. I'd also love to see how Christmas is celebrated in Sweden. I believe that it feels more magical there!

I chose Sweden because I've always been fascinated by its landscape and culture. I've always wanted to live there. I really hope I will get to spend some time in nature, but also that I will see Stockholm again.

I'd also really like to share Italian food and some of its language with my host family.

Thank you for reading my letter.

Best regards,

Jenny.
