Dear Host family,

My name is Nadine and I'm 15 years old. I live with my parents and my two brothers, Marco (12 years old) and Lars (9 years old), in a house in a medium sized City near to the Netherlands. My mother works as a Nurse and my father works as a technology project manager at ALDI. Both my brothers are going to school. In our house every child has their own room, but sharing a room wouldn't be a problem for me.

As a family we often do things together like trips to the museum or we visit the hockey games of my brothers to support them. We find it very important to eat together as a family. For me it's clear that I have to keep my room clean and to wash my own clothes by myself.

I'm in 9th grade and my favourite subjects are English, French and Biology/Chemistry. I started learning Swedish half a year ago.

My hobbies are playing the piano and the flute and once a week I go horse riding, but in western style. In my freetime I like to bake and I also crochet and I like to read.

Overall, I would say that I'm a typical, independent teenager, who sometimes needs a lovely hand, to guide me into the right direction.

During the summertime I like to travel to Sweden, where I quickly fell in love with the nature, the landscaping and the people.

I am extreme excited and grateful to be part of your loving family and to learn more about your country.

Nadine
